PROFESSIONAL EXPERIENCE

Circle K, Raleigh, NC

2020 – Present

Convenience store and gas station corporation

Field Training Specialist

My job is to design and implement new and in place training programs. Provide installation for new accounts and troubleshoot issues

- **Spearhead design for new food-based training program.** I designed a new program for the new food-based initiative in our region.
- **Drafted and usher in new food safety protocols for certification.** I proposed and new regulations for our employees to increase employee understanding and success rates for obtaining food safety certifications.

Turning Point, Boone, NC

2018 – 2019

Turning Point provided services to individuals with IDD by hiring and staffing for clients. Clients were recipients of the Innovations Grants from Medicaid.

Case Manager (Qualified Professional)

As a case manager I was responsible for recruiting, hiring and training all staff. Also, twice a month I would process payroll. I managed a client's portfolio containing their care plan and budget. I would plan and arrange a meeting between the client and VAYA, the agency responsible for managing and compliance with the Innovation program in the Watauga area.

- **I wrote and maintained plans and staff for 30+ clients** during a period of approximately four months, I managed an office of over thirty clients and their staff (40+ helpers). Due to illness and cutbacks, I was left alone to run the office. I stayed focused and professional, managing then office successfully.
- **I hired and on boarded approximately 20 individuals** during my tenure.
- **I helped great people get a chance to be themselves** by being a great manager and supervising my staff, we made sure to make the lives of our clients better.

Abu Dhabi Education Council, Abu Dhabi, UAE

20011 – 2018

Council overseeing educational policies for Abu Dhabi and Al Ain

English Medium Teacher, Lead Teacher (IT Trainer)

I was responsible for teaching two cohorts of students English, Math and Science in English. As a *Lead Teacher*, I mentor and trained several teacher at a time. I trained them on behavioral management, lesson planning, classroom development and testing. Train teachers on new educational IT.

- ***I, with the help of colleagues, wrote and executed an IEP program for several school in my area.*** We collaborated with several medical professions and administration and rolled out a comprehensive program for students with special needs.
- ***I lead an outreach program for English literacy.*** The program took soon-to-be discarded, reading books and gave them to the families of our students. We held small workshops to help the parents know how to read and teach the material at home.
- ***I was the IT trainer for the schools.*** I wrote plans and trained the staff about the effectiveness of IT in the classroom, as well as, shows them how to effectively and confidently use the equipment. Typically, I used a 70-20-10 approach, but would also use small workshop to help the struggling teachers.
